Professional Summary

Senior Clinical Research Associate with 14+ years of monitoring experience across global trials with Pfizer and Quintiles. Strong expertise in site management, ICH-GCP compliance, and full clinical trial lifecycle monitoring. Brings additional strengths from over a decade of business ownership, including operational leadership, compliance oversight, and stakeholder management. Now re-entering clinical research with a focus on contract or permanent CRA roles, with full travel flexibility and remote monitoring capability. Prepared and capable to take on contracts for short periods for employees taking maternity leave.

Professional Experience

Clinical Research Associate
